SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

By this statement, Applicants are submitting information of which they are aware and which they believe may be material to the examination of this application.

The filing of this statement should not be considered as a representation that a search has been made (see 37 C.F.R. § 1.97(g)), or an admission that the information cited is considered to be material to patentability as defined in 37 C.F.R. § 1.56 (see 37 C.F.R. § 1.97(h)). Furthermore, the filing of this statement should not be considered as an admission against interest in any manner (see Notice of final rulemaking, 1135 O.G. 13-25, at 25 (2-4-92)).

A. Non-Patent General Information

The following is a statement as to information not found in the documents or other information previously submitted to the Office in connection with this application.

On December 2, 2003, Applicants filed a Supplemental Information Disclosure Statement in the present application citing non-patent literature documents and non-patent general information. The non-patent general information included a description of certain prior jobs and a related section captioned "General Information Regarding Development of Invention as Claimed" (pages 14-16).

Unfortunately, an inadvertent error was made on page 14 of the section entitled "General Information Regarding Development of Invention as Claimed." Specifically, the representation made in the second sentence that the overall method of discovering, diagnosing and correcting formation integrity problems in successively drilled subterranean well bore intervals is called for by all of the claims is not correct. New independent claim 24, for example, calls for a method of correcting a formation integrity problem is a drilled subterranean well bore interval, which can be limited to a single interval.

This statement is being filed in order to correct the above error.

It is not believed that the above information is suitable for inclusion on Form PTO/SB/08A or Form PTO/SB/08B. Accordingly, such information is not included on the Form PTO/SB/08B accompanying this Statement.

The person making this statement is an attorney of record who signs below on the basis of information which has been supplied by the inventors and/or individuals associated with the filing and prosecution of this application and/or information in the attorney's file.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Clifford C. Dougherty, III", followed by three horizontal lines.
